## Why NY Water?

New York boasts the cleanest water in the U.S. rendering some of the best tasting pizza crust across the nation. We knew that was critical when we opened Top Slice. An authentic crispier, chewier crust with a signature flavor that rivals any found amongst the streets of New York was our goal. As an alternative to shipping water from New York to Florida, we invested in the New York Water Maker - a special filtration system that replicates the process water goes through in New York. Our unique crust, paired with the finest mozzarella money can buy & only fresh ingredients makes our pizza a true flavor sensation. We would love to share our passion for pizza with you...stop in today!
